October is the Ideal Month for Adding Peonies to Your Garden OCT 19 1920 *

This Revised List Includes Many of the World's Best

THE comments from many of my customers make me glad that I decided to again offer the "World's Best Peonies" in good planting sized roots at moderate prices. One customer says, "Since I have had such good results with planting your divisions of same size in the past, I am adding the enclosed list to my order." Another adds, "I am sending a new order to be added to the one already placed. I would just as soon have your two-eye divisions as the larger size." Another comments, "I have missed your smaller division roots these last two years as I have found they do just as well with me as the larger divisions," and still another adds, "Because of the fine growth from one of your collections last year, I am selecting several this year. Enclosed find list and check."

These "repeat orders" from customers have come in like a "vote of confidence" in my original merchandising plan, and together with orders from new flower friends, they compel me to revise the list of Peonies offered in the Special Circular issued four weeks ago as many varieties are now sold out. Still there are many, many fine Peonies available. This revised list gives every flower lover an opportunity to include some of the World's Best Varieties in his Peony planting.

Remember each of these "Bonnewitz two to three-eye Peony Divisions" is guaranteed to have two eyes, sometimes more but never less, and each will have the neces-

FOR THE CONTROL OF THE CONTROL O

"Say It with Living Flowers"

Isn't that an improvement over the old familiar slogan?—and perhaps you will think of many friends to whom you wish to send your good wishes in the form of a selection of these "Better Peonies."

sary root system for successful, satisfactory growth. Each root is guaranteed to be strong and healthy, each shipment is guaranteed to reach you in good condition, and the transportation charges on all shipments are prepaid.

Complete planting instructions are included with every order, and if these are conscientiously followed, you too, will have marked success with these World's Best Peonies which can be purchased at moderate prices.

Another thing, I never substitute. If I cannot supply the varieties you order, I will promptly refund the money sent me.

The Peonies I can still furnish in "Bonnewitz two to three-eye Divisions" are listed on the inside of this folder.

Yours for a Wider Distribution of Better Peonies,

Lee R. Bonnewitz

Van Wert, Ohio

Elwood Pleas

Unless otherwise designated all varieties listed are double peonies.

ALICE HARDING (Lemoine)—Cream white. One of the best of the new and scarce varieties\$37.50
